

This is a test assignment.

Write your example code in a folder name <YYYYMMDDRollNumber>.

Create zip file name <YYYYMMDDRollNumber>.zip

Command: `zip -r filename.zip folderName`

Compute its md5 hash

Command: `md5sum filename.zip`

Request the TA to note down the md5 hash value.

Request the TA to copy your zip file on his/her USB drive.

Submit the zip file using moodle by tomorrow afternoon.
